

**JAPAN SOCIETY FOR THE PROMOTION OF SCIENCE
APPLICATION FOR JSPS SHORT-TERM AWARD PROGRAMME**

Subject Areas

Computer, Engineering, Life, Natural and Physical Sciences

Applicants are asked to tick up to 3 of the individual subject areas listed below. The applicant's choice of subject will help determine how the application is assessed. The subject areas listed below should not be taken as belonging definitively to any one particular section.

Subject	Tick	Code	Subject	Tick	Code	Subject	Tick	Code
Astronomy (mathematical)		1	Geochemistry		35	Taxonomy		69
Computer Science		2	Geodesy		36	Vertebrate and invertebrate zoology		70
Fluid dynamics (theoretical)		3	Geology		37	Biochemistry and molecular biology		71
Mathematics (Applied)		4	Geophysics		38	Biophysics (molecular)		72
Mathematics (Pure)		5	Hydrology		39	Microbiology (chemical)		73
Mechanics (theoretical and applied)		6	Ionospheric physics		40	Soil science		74
Operational research		7	Limnology (excl. freshwater biology)		41	Animal physiology		75
Statistics (theory)		8	Meteorology		42	Biophysics		76
Astronomy		9	Mineralogy		43	Endocrinology (applied & comparative)		77
Crystallography		10	Oceanography (excl. marine biology)		44	Human physiology		78
Physics (applied)		11	Physical Geography		45	Nutrition		79
Physics (experimental)		12	Planetary sciences		46	Pharmacology		80
Physics (theoretical)		13	Infective diseases of plants		47	Psychology		81
Chemistry (applied)		15	Mycology		48	Reproduction		82
Chemistry (organic)		16	Palaeobotany		49	Bacteriology		83
Chemistry (physical and inorganic)		17	Plant anatomy		50	Demography		84
Chemistry (theoretical)		18	Plant breeding		51	Epidemiology		85
Aeronautical engineering		19	Plant ecology		52	Immunology		86
Chemical engineering		20	Plant Pathology		53	Medical Sciences		87
Civil engineering		21	Plant physiology		54	Medical statistics and demography		88
Computer engineering		22	Plant sciences (applied)		55	Microbiology (general)		89
Control engineering		23	Plant taxonomy		56	Pathology		90
Electric power		24	Anatomy		57	Radiobiology		91
Electronics		25	Animal behaviour		58	Virology		92
Engineering science		26	Animal ecology		59	Cell biology		93
Fluid dynamics (experimental)		27	Anthropology		60	Cell development		94
Instrumentation		28	Entomology		61	Cell differentiation		95
Materials science		29	Freshwater biology		62	Genetics		96
Mechanical engineering		30	Marine biology		63	Microbial genetics		97
Nuclear engineering		31	Palaeozoology		64	Molecular genetics		98
Structural engineering		32	Parasitology		65	Population genetics		99
Turbo machinery engineering		33	Population dynamics		66			
Archaeology		34	Protozoology		67			
			Systematics		68
