

Life in Japan ...

Martyn Kingsbury

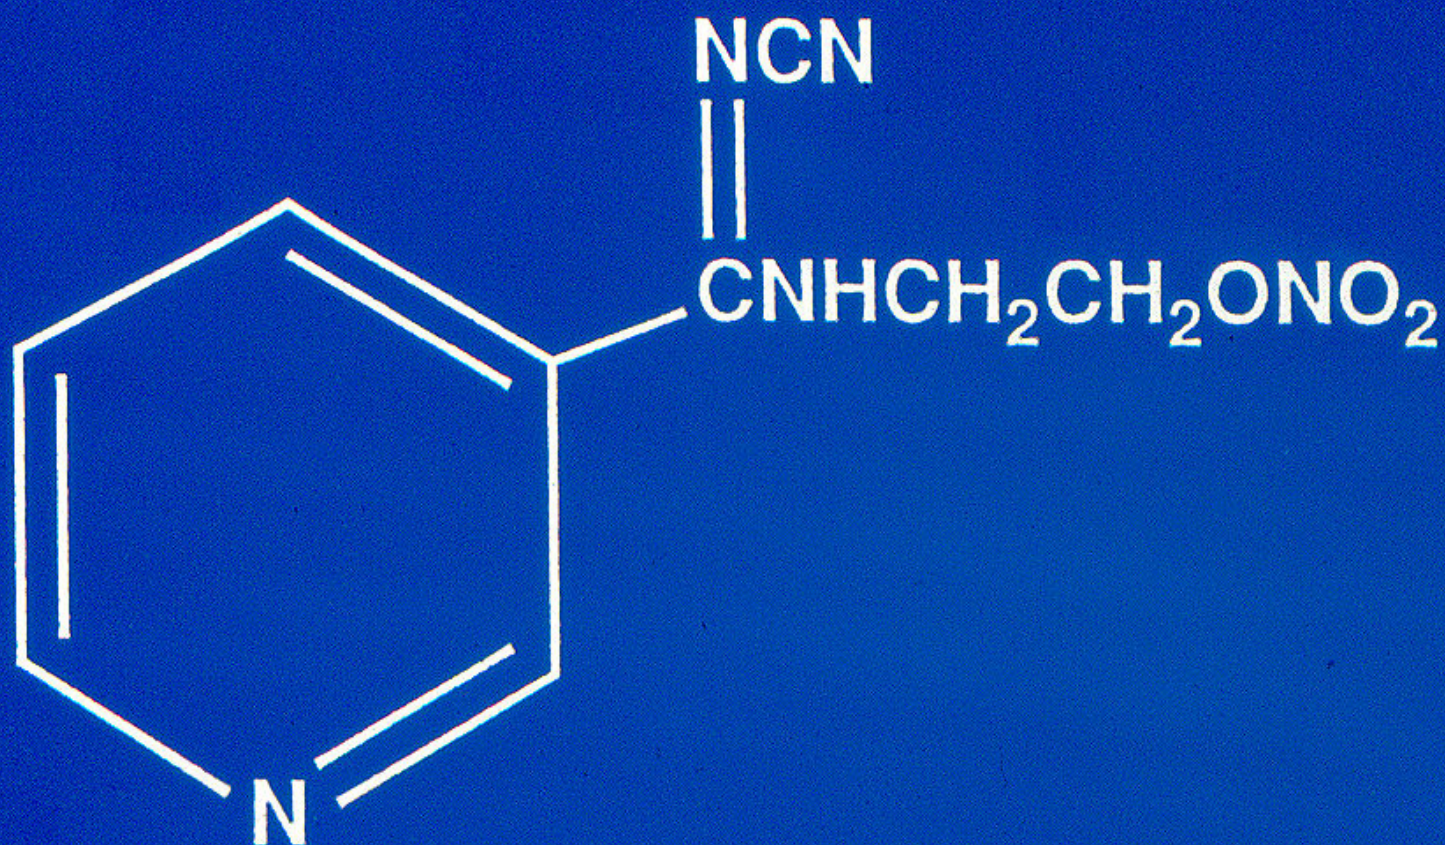

“ ... You should recognize that Japan has indeed been modernized to a certain extent but not westernized at all in a strict sense. ...

... I understand you are interested in Japanese classical martial arts. But I wonder if you will have enough time to be involved in these arts. In my department every researcher should work nearly from 8 o'clock in the morning to 10 o'clock in the evening, from Monday through Saturday. Of course, you have Sunday.”

How to use a Japanese Toilet

OH!
WHAT A BIG
SLIPPER..

**NO,
I'M NOT!**

Face the "hooded" end of the toilet and then squat down and go about your business. Though this position may seem uncomfortable at first, it is very sanitary because no part of your body comes in contact with the receptacle.

Good Luck!
